

## Learning Objectives

- \***Describe** and use a variety of technological tools with peer or adult help
- \***Explore**, investigate or question in any domain
- \***Identify** a variety of feelings and moods
- \***Show** growing satisfaction with their own creative work and a growing respect for the creative work of others
- \***Talk** about and explore jobs in the community

## Learning At Home

### Do you want to build a snowman?

Spend some time together as a family building a snowman and then share your photos with us via email. We look forward to seeing your creative work.

"Say Cheese"

*Exploring stamps and inkpads in the creative area*

Last month, children developed a greater understanding of print and book handling concepts. Teachers supported growth in this area by modeling the care and keeping of books, increasing awareness of the front/back cover, title and directionality concepts.

Other areas around the room that were focused on, included simple experiments in the discovery area and exploring sensory activities in the creative area.

This month, children will begin to understand that their ideas can be written and then read by themselves or others. Teachers will support this concept, by providing children opportunities to discuss and make lists of their favorite things.

~ Ms. Amanda, Ms. Andy, Ms. Katie and Ms. Khushboo
